## NPAC ANNUAL INTERNATIONAL CONFERENCE ON ARBITRATION

We at Nani Palkhivala Arbitration Centre (NPAC) constantly endeavour to educate stakeholders in the arbitration regime on the benefits of institutional arbitration as a viable mode of dispute resolution. We also strive to make effective contributions towards shaping the growth of the law of arbitration and building a competent and efficient arbitral regime in India.

NPAC is in the forefront of this dialogue by hosting conferences/events, conducting training programmes including for senior government officers/bureaucrats and through publications. NPAC also fosters interaction amongst professionals, practitioners, academicians and representatives of industry in the field of arbitration.

The Governing Council, the Board of Directors and the entire team of Nani Palkhivala Arbitration Centre take great pride in inviting all of you to be a part of the 13th Annual International Conference on the theme '**The Evolving Arbitration Framework in India- Challenges and Opportunities**', scheduled to be held on **Saturday, 9th of April, 2022** at Shangri-La's - Eros Hotel, 19 Ashoka Road, Connaught Place, New Delhi 110001, India. This conference will be conducted in a hybrid mode (i.e., physical and virtual).

In the last few years, the importance of arbitration as a quick and cost-effective mode of resolution of disputes has been recognized. Development of the law and practice of arbitration in India in ensuring quicker resolution of disputes will enhance India's performance in the World Bank's Ease of Doing Business Index and contribute towards India becoming a global arbitration hub.

In this regard, assessing the evolution of the arbitration framework in India, current trends and future trajectory is a crucial step. There are multiple questions and scenarios, an understanding and analysis of which would reveal various challenges and opportunities which impact the growth of arbitration. Some of these include regulatory aspects such as impact of recent amendments in domestic arbitrations, issues relating to "unilateral appointment", seeking legislative intervention in arbitration law and statutory arbitrations improving the regime for enforcement of foreign awards. Further, there are many practical aspects for consideration such as third-party funding in arbitrations, consolidation of multi-party, multi contract arbitrations, use and impact of technology on arbitration proceedings, dimensions of a corporate policy on alternative dispute resolution and improving the arbitral process for corporate consumption.

The agenda for the conference includes presentation of papers by eminent practitioners of arbitration law from across the globe, partners/associates of various domestic and international law firms as well as discussions on current affairs and trends in arbitration law in relation to the theme of the conference.

It affords the opportunity for interacting and networking with industrialists and experts in the field of arbitration from both India and abroad. We would earnestly invite you to utilize this opportunity and to profit by it.
